RE: Amend Administrative Order PLC-629
Nash Deep East Tank Battery
Eddy County, NM

Dear Mr. McClure:

XTO Energy Inc. (XTO) request the Administrative Order referenced be amended to remove verbiage requiring the quarterly filing of NMOCD Form C-103 as written in the Conditions of Approval as follows:

“Operator shall submit a Sundry Notice (C-103) to the Engineering Bureau in Santa Fe when the planned number of well tests per month decreases due to the well transitioning to a production period in which the well requires fewer well tests per month. The Sundry Notice shall include production curves and a decline rate curve demonstrating that the well meets the conditions to require fewer well tests per month.”

XTO currently meets or exceeds the minimum testing requirements, as well as Federal standards.

If you should need any additional information or have any questions, please feel free to contact me at 432-221-7379 or by email at tracie_cherry@xtoenergy.com.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Tracie J Cherry'.
