JAVELINA 30 FED	702H	300254283000S1	NMNM108504	NMNM108504	EOG

**Procedure Description:** Another Sundry will be submitted to include the Javelina 30 Fed 703H and 704H. Please batch these sundries together due to the migration issue. EOG Resources, Inc. ("EOG") respectfully requests approval to surface lease commingle oil & gas from all existing and future wells in Section 28 & 21 in Township 25 South, Range 34 East within the Wolfcamp pool listed below, for Leases NM NM 108504 and NM NM 112279, and for CA NM NM 137199. This Commingle and Allocation Approval (CAA) will not negatively affect the royalty of the federal government. Any allocation meters (non-FMPs) will meet API measurement standard 14.1. All leases, unit PAs, or CAs in the proposed CAA are capable of production in paying quantities, defined as 1 bbl/day of oil or 10 MCF/day of gas. Gas analysis is not required because we are applying under 3173.14(a)(1)i (Federal lease, unit PA, or CA, where each lease, unit PA, or CA proposed for commingling has 100 percent Federal mineral interest, the same fixed royalty rate and, and the same revenue distribution). The location of the FMP is on the lease. There is no new surface disturbance included as part of the proposed CAA. These spacing units are initially dedicated to the following wells:

## Surface Disturbance

Is any additional surface disturbance proposed?: No
