Re: Amended Application of Anthem Water Solutions, LLC to permit for saltwater disposal in proposed Maxey Deep SWD 1 well to be location in Section 3, Township 22 South, Range 27 East, NMPM, Eddy County, New Mexico

To Whom it May Concern:

The original application states that the surface location of the Maxey Deep SWD 1 would be 250 feet from the North line and 760 from the West line, in Section 3, Township 22 South, Range 27 East, NMPM, Eddy County, New Mexico. The amended location will be 130 feet from the North line and 760 feet from the West line, in Section 3, Township 22 South, Range 27 East, NMPM, Eddy County, New Mexico. There are no other changes to the original application.

Enclosed is an amended for C-102 showing the correct footage call for the surface location along with the correct maps required for the C-108. This amendment is being made to satisfy concerns by Conoco Phillips. Their concerns have been addressed and Conoco Phillips has agreed to waived objections to this well given this change of location.

This change in location will not affect any other part of the application. The new AOR does not include and wells that were not addressed originally. Further, no additional adjacent operators were identified after the move, so no additional notifications are required. All other attachments to the original C-108 have not changed. The surface owner is NA, Anthem is copying them on this letter, so they are aware of the new location.

If you or your staff have any questions or require additional information, please do not hesitate to contact me.

Best Regards,

Marshall Tippen

Marshall,

That location works for us. We appreciate you willing to work with us on this.

Please keep us in the loop of any new SWD locations in the area as we are happy to review them in advance of permit submission.

Thanks,

Hannah

Subject: [EXTERNAL]Maxey Deep SWD 1 _ Surface Location

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Hannah,

Appreciate your call this morning and working with us on the Maxey Deep SWD 1 location. I would like to propose a location that is 130' FNL & 760' FEL (original location was 250' FNL & 760' FEL) Section 3, T22S R27E, Eddy County. The section line runs on the north side of Refinery Road, this location allows me to have 100' off of the road easement to get all the drilling equipment in there which would be ideal from our end. Let me know if this does not work out and we will figure something out.

Sincerely,

Marshall Tippen
