Subject: RE: [EXTERNAL] Blackbuck - Patriot SWD Amended Location

Barry & Dylan:

The revised location is acceptable to EOG. Therefore, we formally remove our protest.

If you have any questions, please let me know!

Thanks,
Katie

Katie,

Sorry for the delay here, but we have had some issues coordinating the surface hole location move with the NMOCD.

Attached is a packet we sent for revision of the location.

If you are good with it I would appreciate a timely response to the OCD on your protest. If you wanted to cover your bases you could withdraw your protest based on the new location of 300' FSL and 142' FWL.

Dylan Rose-Coss with the OCD specifically, is working the permit, and requested a response from EOG to move forward. His email is DylanH.Rose-Coss@state.nm.us.

Happy to have a call to discuss.

Thanks

Barry –

Thanks for the call today. EOG's planned development in Section 9 & 10, T25S, R27E is East-West Development with surface locations in Section 10. Current development has a wellbore location on the 330' FSL line.

Our request is that Blackbuck amend your application for the subject SWD to Unit M, Section 9, T25S, R27E: 114' FWL, 300' (or below) FSL. We request this amendment due to anti-collision issues within our development plan. The closer to the southern lease line the better, just anywhere below 300' FSL.

Thanks again,
Katie
