Attn: Mr. David K. Brooks

RECEIVED OGD
2011 AUG 16 A 11:36

Dear Mr. Brooks,

BTA Oil Producers hereby seeks administrative approval to produce at the above referenced location in the Culebra Bluff; Bone Spring, South Pool. This location is unorthodox because it is governed by the Division's statewide rules which provide for wells in this pool to have a 660' setback from the lease line.

There are no other Bone Spring wells on this lease. There is one Bone Spring well in the SW/4 of Section 11; our Pardue, 8808 JV-P, No. 1 located in Unit L, API 30-015-25964. Attached hereto is a copy of a certified plat showing the proposed well location. Also attached is a map showing the proposed well location and all existing wells.

The proposed unorthodox well location is necessary to enable BTA to locate this well in the thickest portion of the Bone Spring channel while maintaining an optimum structural position.

As BTA is the only location that the referenced well would be encroaching on, there are no notifications necessary.

Should further information be required, to approve this application, please advise.

Respectfully

Pam Inskeep

Attn: Mr. David K. Brooks

Dear Mr. Brooks,

BTA Oil Producers hereby seeks administrative approval to produce at the above referenced location in the Culebra Bluff; Bone Spring, South Pool. This location is unorthodox because it is governed by the Division's statewide rules which provide for wells in this pool to have a 660' setback from the lease line.

There are no other Bone Spring wells on this lease. There is one Bone Spring well in the SW/4 of Section 11; our Pardue, 8808 JV-P, No. 1 located in Unit L, API 30-015-25964. Attached hereto is a copy of a certified plat showing the proposed well location. Also attached is a map showing the proposed well location and all existing wells.

The proposed unorthodox well location is necessary to enable BTA to locate this well in the thickest portion of the Bone Spring channel while maintaining an optimum structural position.

As BTA is the only location that the referenced well would be encroaching on, there are no notifications necessary.

Should further information be required, to approve this application, please advise.

Respectfully,

Pam Inskeep
