NATURE OF RELEASE

|  |  |  |            |                                   |                      |
|--|--|--|------------|-----------------------------------|----------------------|
| Type of Release  | Produced fluid   | Volume of Release  | 20bbls     | Volume Recovered                  | 18bbls               |
| Source of Release  | Sight glass on heater treater  | Date and Hour of Occurrence  | 09/07/2011 | Date and Hour of Discovery        | 09/07/2011 9:00 a.m. |
| Was Immediate Notice Given?  | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input checked="" type="checkbox"/> Not Required | If YES, To Whom?   |            |                                   |                      |
| By Whom?   |  | Date and Hour  |            |                                   |                      |
| Was a Watercourse Reached?   | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No  | If YES, Volume Impacting the Watercourse.  |            |                                   |                      |
| If a Watercourse was Impacted, Describe Fully.*  |  |  |            |                                   |                      |
| Describe Cause of Problem and Remedial Action Taken.*  |  |  |            |                                   |                      |
| Sight glass broke on heater treater causing the release. The sight glass has been replaced.  |  |  |            |                                   |                      |
| Describe Area Affected and Cleanup Action Taken.*  |  |  |            |                                   |                      |
| Initially 20bbls were released from the sight glass at the heater treater and we were able to recover 18bbls with a vacuum truck. All standing fluid has been picked up along with any impacted gravel and impacted soil. Tetra Tech will sample the spill site area to delineate any possible contamination from the release and we will present a remediation work plan to the BLM/NMOCD prior to any significant remediation work.  |  |  |            |                                   |                      |
| I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations. |  |  |            |                                   |                      |
