Subject: ConocoPhillips Line NM-1-1 (GW-349) H2S Contingency Plan Note to File

This note to file serves to document that the Oil Conservation Division (OCD) communicated with Mr. Tom Wynn (ConocoPhillips) about the above subject submittal.

From OCD records, Mr. Wynn said, "it has no gas plants in SE NM and this permit is for a crude gathering station only."

Consequently, unless conditions change and sour gas may impact public areas above 100 ppm [H2S], this note serves as a record for ConocoPhillips and OCD that an H2S Contingency Plan is not required at this time.

Please contact me if you have questions. Thank you.
