CERITFIED MAIL-RECEIPT REQUESTED 7009 2820 0000 6910 8761

August 31, 2011

Ms. Jami Bailey **Division Director** Oil Conservation Division New Mexico Department of Energy, Minerals and Natural Resources 1220 South Saint Francis Drive Santa Fe, NM 87505

RE:

Application of Energen Resources Corporation for Administrative Approval of the Simultaneous Dedication of the North-Half of Section 30, Township 32 North, Range 4 West, N.M.P. M., Rio Arriba County, New Mexico to its presently drilling Carracas 30 B # 6H Well and the existing Carracas 30 B # 8 Well.

Dear Ms. Bailey:

Energen Resources Corporation is the operator of a 310.45 acre spacing unit in the Basin Fruitland Coal Pool (Pool Code 71629) comprised of the north-half of Section 30, Township 32 North, Range 4 West, N.M.P.M., Rio Arriba County, New Mexico. This spacing unit is dedicated to Energen's Carracas 30 B # 8 which was vertically drilled and produces from the Fruitland Coal formation.

Energen seeks administrative approval of the simultaneous dedication of this 310.45 acre spacing unit to the following two gas wells:

- the Carracas 30 8 # 8 well (API No. 30-039-24442) vertically drilled from a surface location 2,240' FNL and 620' FEL of Section 30; pursuant to NSL-2595 and
- В. the newly drilling Carraca s 30 B # 6H we II (API No. 30-039-30905) which is being horizontally drilled form a surface location 1,560' FSL and 741' FWL of Section 20, to a proposed bottom hole location 1,000' FNL and 400' FWL of Section 30. The entry point was at 100' FNL and 100' FEL of Section 30.

Neither well violates the existing set back requirements for these wells. There are 10' setbacks pursuant to Order R-13119.

Attached hereto for each well is a copy of Division Form C-102 for these wells that show the surface and bottom hole locations of each well. In addition also enclosed is a map of the offset operators of all offsetting spacing units. Energen Resources is the operator of all offsetting spacing units and owns 100% of the working interest in all offsetting spacing units.

Since Energen is the only party required to be furnished a Notice to offset operators none is being attached to this application.

The simultaneous dedication of the North-Half of said Section 30 to the Carracas 30 B # 8 and the Carracas 30 B # 6H wells will afford Energen the opportunity to efficiently produce the Fruitland Coal formation under this spacing unit. Energen's proposed simultaneous dedication of these wells does not exceed the number of wells allowed by division Rule for this spacing unit.

Your attention to this application is appreciated.

Sincerely,

David M. Poage District Landman
