Attention: J. A. Schaffer

C. P. Falby "A" No. 2
Unit D, Section 8, Township 22 South, Range 37 East, NMPM, Lea
County, New Mexico.
Penrose Shelly Grayburg and Eumont Yates Seven Rivers Queen
Pools

Dear Mr. Schaffer:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations to permit the subject well to commingle production from both pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the two zones is hereby placed in abeyance.

In accordance with the provisions of Rule 303-C-4., total commingled oil production from the subject well shall not exceed 20 barrels per day, and total water production shall not exceed 40 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 10,000 by the top unit allowable for the Penrose Skelly Grayburg Pool.

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:

Grayburg Pool:	Oil 100%,	Gas 26%
Yates-Seven Rivers-Queen Pool:	Oil 0%,	Gas 74%

Pursuant to Rule 303-C-5, the commingling authority granted by the order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Administrative Order DHC-733
Texaco Producing, Inc.
August 1, 1989
