Vernon,

As we discussed this morning, backfill operations may commence at this site.

**Subject:** DCP M 28 Line Closure Approval Request

Good morning Mike,

Please see the above attachments for closure approval for DCP's M-28 Line. SP's A & B are from the top of the stockpile. These samples along with the original samples indicate contaminant levels at or below closure level requirements. Please note that SP C (not on the sketch) is the sample point at the base of the arroyo's where they enter the playa. We have the points GPS'd and marked for future sampling should the need arise. Please give me a call if you have any questions.

Thanks,  
Vernon
