ADMINISTRATIVE ORDER DHC-765

Marathon Oil Company
P.O. Box 552
Midland, TX 79702

Attention: William D. Holmes

Mark Owen Well No. 8
Unit M, Section 35, Township 21 South, Range 37 East, NMPM, Lea
County, New Mexico.
Wantz Abo & Wantz Granite Wash Pools

Dear Mr. Holmes:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations to permit the subject well to commingle production from both pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the two zones is hereby placed in abeyance.

In accordance with the provisions of Rule 303-C-4., total commingled oil production from the subject well shall not exceed 50 barrels per day, and total water production shall not exceed 100 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 2000 by the top unit allowable for the Wantz Granite Wash Pool.

Administrative Order DHC-765
Marathon Oil Company
August 29, 1990
Page 2

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:

Abo Pool:	Oil	22%,	Gas	82%
Granite Wash Pool:	Oil	78%,	Gas	18%

Pursuant to Rule 303-C-5, the commingling authority granted by the order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Approved at Santa Fe, New Mexico on this 29th day of August, 1990.
