Langlie Mattix-7Rvrs Queen Grayburg Pool

Separately owned oil and gas streams shall be continuously measured prior to being commingled for production and sales. Periodic well testing is permitted for allocation of production between well completions of identically owned oil and gas.

The measurement and sales point for commingled oil and gas may occur off lease. The producer is responsible for notifying the transporter of this commingling authority.

The operator shall notify the Hobbs District Office of the Division upon implementation of the commingling process. It is the responsibility of the producer to notify the transporter of this commingling authority.

Administrative permits PLC-54 and PLC-54-A are hereby superseded and no longer in effect.

This surface commingling is dependent upon like approval from the New Mexico State Land Office.

JAMI BAILEY
Director
