Subject: Recommendations Approval (2011) (GW-351) - Plains Lea Station Release Site

**RE: Annual Monitoring Report (2011) for the Plains Marketing's
Lea Station Release Site (GW-351)
NW1/4, Section 28, T20S, R37E, NMPM, Lea County, New Mexico
Recommendations Approval**

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has received Plains' report (including proposed "Recommendations") the above-referenced site (dated March 2012). The above-referenced report, submitted in partial fulfillment of 20.6.2 NMAC (WQCC Rules), indicates that Plains has partially met the requirements of 20.6.2 NMAC for this site. Therefore, the OCD hereby approves the proposed Recommendations for the Lea Station Release Site.

Please be advised that OCD approval of this report does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

Thank you for your cooperation in this matter. If you have any questions regarding this matter, please contact at 505-476-3489.

Edward J. Hansen
Hydrologist
Environmental Bureau

P.S.: Please keep in mind that the following compounds must not be present (i.e., at 0.001 mg/L or less) in groundwater (therefore, the detection limit must be no greater than 0.001 mg/L, *not 0.010 to 0.200 as indicated in Table 3*):

- (a) anthracene
- (b) 3,4-benzofluoranthene {a.k.a.: benzo[b]fluoranthene}
- (c) benzo (k) fluoranthene
- (d) fluoranthene
- (e) fluorene
- (f) phenanthrene
- (g) pyrene

P.P.S.: Also, please keep in mind that the WQCC standard for benzo(a)pyrene is 0.0007 mg/L (therefore, the detection limit must be no greater than 0.0007 mg/L, *not 0.010 to 0.200 as indicated in Table 3*).

Subject: Recommendations Approval (2011) (GW-351) - Plains Lea Station Landfarm

**RE: Annual Monitoring Report (2011) for the Plains Marketing's
Lea Station Landfarm (GW-351)
NW1/4, Section 28, T20S, R37E, NMPM, Lea County, New Mexico
Recommendations Approval**

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has received Plains' report (including proposed "Recommendations") the above-referenced site (dated March 2012). The above-referenced report, submitted in partial fulfillment of 20.6.2 NMAC (WQCC Rules), indicates that Plains has partially met the requirements of 20.6.2 NMAC for this site. Therefore, the OCD hereby conditionally approves the proposed Recommendations for the Lea Station Landfarm:

Plains must obtain OCD site-specific approval for use of remediated soils.

Please be advised that OCD approval of this report does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

Thank you for your cooperation in this matter. If you have any questions regarding this matter, please contact at 505-476-3489.

Subject: Recommendations Approval (GW-351) - Plains Lea Station Release Site

**RE: Annual Monitoring Report (2010) for the Plains Marketing's
Lea Station Release Site (GW-351)
NW1/4, Section 28, T20S, R37E, NMPM, Lea County, New Mexico
Recommendations Approval**

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has received Plains' report (including proposed "Recommendations") the above-referenced site (dated January 2012). The above-referenced report, submitted in partial fulfillment of 20.6.2 NMAC (WQCC Rules), indicates that Plains has partially met the requirements of 20.6.2 NMAC for this site. Therefore, the OCD hereby conditionally approves the proposed Recommendations for the Lea Station Release Site:

Plains must sample on a quarterly basis for BTEX in groundwater monitoring well, MW-12.

Please be advised that OCD approval of this report does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

Thank you for your cooperation in this matter. If you have any questions regarding this matter, please contact at 505-476-3489.
