Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit

Only Water Quality Control Commission- regulated systems will be incorporated into the OCD's WQCC Permits, while OCD regulated systems will be handled under separate permit(s). A current discharge permit is valid until its normal expiration date or November 15, 2012, whichever is later. All facilities with processes subject to the Water Quality Act must have permits in place by November 16, 2012. H2S Contingency Plans; pits, ponds, above and/or below-grade tanks; waste treatment, storage and disposal; and landfarms and landfills may require separate permitting under the OCD Oil, Gas, and Geothermal regulations.

Proper completion and timely submission of this questionnaire is requested for all facilities with discharge permit expiration dates before November 15, 2012. Please complete and submit a separate questionnaire for each facility <u>before July 15, 2011</u>.

Name of the owner or operator of the facility

	Oil & Gas Facilities Inventory Questionnaire May 12, 2011 Page 2 of 3
	Steam Cleaning Groundwater Remediation
	• Facility Status Active Idle Closed
	• Does this facility currently have a discharge permit? Yes
	 If so, what is the permit number? • Are there any routine activities at the facility which intentionally result in materials other than potable water being released either onto the ground or directly into surface or ground water? (This includes process activities, equipment maintenance, or the cleanup of historic spills.) Yes No
	If so, describe those activities including the materials involved, the frequency of discharge, and the estimated volume per discharge event.
	• What is the depth below surface to shallowest ground water in the area? <u>Not الامت</u> وسيم
	Are there any water supply, groundwater monitoring, or recovery wells at the facility? Water supply Monitoring Recovery
	If these wells are registered with the Office of the State Engineer (OSE), what are the OSE well numbers?
	Are abatement actions ongoing?
	• Are there any active or inactive UIC wells present as part of the federal Underground Injection Control program associated with this facility? Yes No
	If so, what are the API numbers assigned to those wells?
	• Are there any sumps at the facility? X Yes No Number of sumps with volume less than 500 gallons 4 Use and contents Washed water from claiming compressions Is secondary containment incorporated into the design? Yes No
	Number of sumps with volume greater than 500 gallons 2 Use and contents <u>Nauids from drain inside shop</u> Is secondary containment incorporated into the design? Yes No

.
