### Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit

Only Water Quality Control Commission- regulated systems will be incorporated into the OCD's WQCC Permits, while OCD regulated systems will be handled under separate permit(s). A current discharge permit is valid until its normal expiration date or November 15, 2012, whichever is later. All facilities with processes subject to the Water Quality Act must have permits in place by November 16, 2012. H2S Contingency Plans; pits, ponds, above and/or below-grade tanks; waste treatment, storage and disposal; and landfarms and landfills may require separate permitting under the OCD Oil, Gas, and Geothermal regulations.

Proper completion and timely submission of this questionnaire is requested **for all facilities with discharge permit expiration dates before November 15, 2012**. Please complete and submit a separate questionnaire for each facility **before July 15, 2011**.

| • Facility location   |
| • Facility location Unit Letter, Section, Township, Range Section 36, Township 225, Range 30E Street address (if any)   |
| • Facility type ☐ Refinery ☐ Gas Plant ☐ Compressor ☐ Crude Oil Pump Station ☐ Injection Well ☐ Service Company ☐ Geothermal ☐ Abatement ☐ Other (describe)                                   |
| • Current and Past Operations (please check all that apply)  ☐ Impoundments ☐ Treatment Plant ☐ Waterflood ☐ Disposal Well ☐ Brine Well ☐ Wash Bay ☐ Steam Cleaning ☐ Groundwater Remediation |

Oil & Gas Facilities Inventory Questionnaire May 12, 2011 Page 2 of 3 Active Idle Closed Facility Status • Does this facility currently have a discharge permit? X Yes If so, what is the permit number? GW-267 • Are there any routine activities at the facility which intentionally result in materials other than potable water being released either onto the ground or directly into surface or ground water? (This includes process activities, equipment maintenance, or the cleanup of historic spills.) Yes ⊠ No If so, describe those activities including the materials involved, the frequency of discharge, and the estimated volume per discharge event. What is the depth below surface to shallowest ground water in the area? \_\_\_\_\_\_ • Are there any water supply, groundwater monitoring, or recovery wells at the facility? Water supply Monitoring Recovery  $NA \square$ If these wells are registered with the Office of the State Engineer (OSE), what are the OSE well numbers? • Are abatement actions ongoing? Not applicable • Are there any active or inactive UIC wells present as part of the federal Underground Injection Control program associated with this facility? Yes If so, what are the API numbers assigned to those wells? ⊠ Yes □ No -Are there any sumps at the facility? Number of sumps with volume less than 500 gallons Two Use and contents Oil drips from the pumps Is secondary containment incorporated into the design? Yes  $|\times|$  No

Number of sumps with volume greater than 500 gallons None

Yes

No

Is secondary containment incorporated into the design?

Use and contents
