

Questionnaire

DATE: 2011

Susana Martinez Governor

John H. Bemis Cabinet Secretary-Designate

Brett F. Woods, Ph.D. Deputy Cabinet Secretary

May 12, 2011

Only Water Quality Control Commission- regulated systems will be incorporated into the OCD's WQCC Permits, while OCD regulated systems will be handled under separate permit(s). A current discharge permit is valid until its normal expiration date or November 15, 2012, whichever is later. All facilities with processes subject to the Water Quality Act must have permits in place, by November 16, 2012. H2S Contingency Plans; pits, ponds, above and/or below-grade tanks; waste treatment, storage and disposal; and landfarms and landfills may require separate permitting under the OCD Oil, Gas, and Geothermal regulations.

Proper completion and timely submission of this questionnaire is requested for all facilities with discharge permit expiration dates before November 15, 2012. Please complete and submit a separate questionnaire for each facility <u>before July 15, 2011</u>.

Name of the owner or operator of the facility

Agave Energy Company	
Point of contact Name Jennifer Knowlton Telephone 575-748-4471 Email jknowlton@yatespetroleum.com Mailing address 105 South Fourth Street, Artesia, NM 88210	
Facility name <u>Red Bluff #2 Compressor Station</u>	
• Facility location Unit Letter, Section, Township, Range <u>Unit H, Section 34 T7S R25E</u> Street address (if any)	
Facility type Refinery Gas Plant X Compressor Crude Oil Pump Station Injection Well Geothermal Abatement Other (describe)	,
Current and Past Operations (please check all that apply) Impoundments Treatment Plant Waterflood Disposal Well Brine Well Wash Bay Steam Cleaning Groundwater Remediation
