Re: Exxon Federal "8" Well No. 1

Dear Steve:

I have review your application for the proposed downhole commingling of the subject well and have found that additional information is necessary. Please submit more information on Item No. 2 Parts (d), (e), (f), (g), (h), (i) and (j). I have enclosed a copy of Division Rule No. 303 (C) which outlines the information needed to process a downhole commingling application. In addition, please note that all offset operators are required to be notified of the proposed commingling whether or not there is any offset Atoka or Morrow production.

If you should have any questions or need assistance please contact me at (505) 827-5800.

Sincerely,

David Catanach
Engineer
