## Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit

Only Water Quality Control Commission-regulated systems will be incorporated into the OCD's WQCC Permits, while OCD regulated systems will be handled under separate permit(s). A current discharge permit is valid until its normal expiration date. All facilities with processes subject to the Water Quality Act must have permits in place by November 16, 2012. H2S Contingency Plans; pits, ponds, above and/or below-grade tanks; waste treatment, storage and disposal; and landfarms and landfills may require separate permitting under the OCD Oil, Gas, and Geothermal regulations.

Please complete and submit a separate questionnaire for each facility within 30 days of your receipt of this form.

• Name of the owner or operator of the facility

Permian Treating Chemicals, Inc.

• Point of contact

Name Sale Blackwell

Telephone 575-398-4111

Email Permian2@leaco.net

Mailing address P.O. Box 815

Tatum, NM 88267

Facility name Permian Treating Chemicals, Inc.

• Facility location

Unit Letter, Section, Township, Range NE/4, Sec 30, T5 12 south, Range 36 East

Latitude, Longitude (Decimal Degrees) N 33.25685 W 103.33584

Street address (if any) 27 Highway 380 West

Tatum, NM 88267

• Facility type

Refinery

Gas Plant

Compressor Station

Crude Oil Pump Station

Injection Well

Service Company

Geothermal Well

• **Facility Status**     Active     Idle     Closed

• **Does this facility currently have a discharge permit?**     Yes     No

If so, what is the permit number? GW-215

• **Are there any routine activities at the facility which intentionally result in materials other than potable water being released either onto the ground or directly into surface or ground water?** (This includes process activities, equipment maintenance, or the cleanup of historic spills.)

- Yes     No

If so, describe those activities including the materials involved, the frequency of discharge, and the estimated volume per discharge event.

---

---

---

---

---

• **What is the depth below surface to shallowest ground water in the area?** 30 foot

• **Are there any water supply, ground water monitoring, or recovery wells at the facility?**

- Water supply     Monitoring     Recovery

If these wells are registered with the Office of the State Engineer (OSE), what are the OSE well numbers? unknown - domestic well?

• **Are abatement actions ongoing?** No

If so, please describe.

---

---

---

• **Are there any active or inactive UIC wells present as part of the federal Underground Injection Control program associated with this facility?**     Yes     No

If so, what are the API numbers assigned to those wells?

---

---

• Are there any sumps at the facility?

Yes

No

Number of sumps with volume less than 500 gallons \_\_\_\_\_

Use and contents \_\_\_\_\_

Is secondary containment incorporated into the design?

Yes

No

Number of sumps with volume greater than 500 gallons \_\_\_\_\_

Use and contents \_\_\_\_\_

Is secondary containment incorporated into the design?

Yes

No

• Does the facility incorporate any underground lines other than electrical conduits, freshwater, natural gas for heating, or sanitary sewers?

Yes

No

If so, what do those buried lines contain?

**THIS FORM IS DUE TO THE OIL CONSERVATION DIVISION WITHIN 30 DAYS OF YOUR RECEIPT OF THIS FORM.**

Questions? Please contact Glenn von Gonten at 505-476-3488.

Thank you for your cooperation.

**MARCH 1, 2012**

Mr. Gale Blackwell  
Permit Treating Chemicals, Inc.  
P.O. Box 815  
Tatum, NM 88267

Dear Mr. Blackwell:

The Oil Conservation Division's (OCD) records indicate that the following Water Quality Control Commission (WQCC) Discharge Permit has already expired or will soon expire.

**GW-215 Permian - Tatum Facility**

OCD has revised its permitting policies. These changes may affect the renewal of your discharge permit(s). Please submit an "Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit" for each of your facilities (see attachment and OCD's "Notifications and Announcements" at <http://www.emnrd.state.nm.us/oed>). Please submit the completed Questionnaires within 30 days of your receipt of this letter. Based on your response, OCD will determine whether you will need to submit a discharge permit renewal. If OCD determines that you no longer are required to operate under a WQCC Discharge Permit, you may be required to obtain a separate permit(s) for other processes at your facility, such as: pits, ponds, impoundments, below-grade tanks; waste treatment, storage and disposal operations; and landfarms and landfills. OCD will determine if any of these existing processes may require a separate permit under OCD's Oil, Gas, and Geothermal regulations. If OCD determines that a separate permit(s) is required, then a letter will be sent to you indicating what type of permit is required.

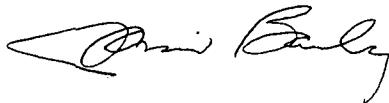

Please keep in mind, if your facility has any discharges that would require a WQCC Discharge Permit now or in the future, then you will be required to renew or obtain a WQCC Discharge Permit.

Mr. Blackwell
