Mewbourn Oil Company
c/o James Bruce
500 Marquette NW - Suite 800
Albuquerque, New Mexico 87102-2121

*Second Amendment
Administrative Order NSL-2736*

Dear Mr. Bruce:

Reference is made to your application dated September 30, 1991 to include the Hart Draw - Atoka Gas Pool in the provisions of Division Administrative Order NSL-2736, dated December 21, 1989, as amended February 1, 1990, which authorized Mewbourn Oil Company to test the Undesignated Logan Draw Morrow Gas Pool at an unorthodox gas well location 660 feet from the South line and 1190 feet from the West line (Unit M) of Section 17, Township 17 South, Range 27 East, NMPM, Eddy County, New Mexico.

It is our understanding that the Atoka and Morrow intervals are now commingled downhole (Administrative Order DHC-818) and that the S/2 of said Section 17 shall be dedicated to both zones forming a standard 320-acre gas spacing and proration unit in both pools.

By the authority granted me under the provisions of Division General Rule 104F.(1) said Order NSL-2736 is further amended to include both the Atoka and Morrow producing intervals.

All other provisions of said Order NSL-2736, as amended, shall remain in full force and effect until further notice.

Sincerely,

A handwritten signature in black ink, appearing to read "William J. Lemay". The signature is written in a cursive style with a long, sweeping tail that extends downwards and to the right.

WILLIAM J. LEMAY
Director
