Unit Letter G, Section 23, T22S, R37E, NMPM, Lea County, New Mexico  
Corrective Action Plan (1R426-281) Initial Report Submittal Extension Approval**

Dear Ms. Peña:

The New Mexico Oil Conservation Division (OCD) has received the Initial Report of the Corrective Actions – Extension Request for the BD G-23 EOL Site, dated September 14, 2012, and has conducted a review of the Request. The OCD hereby conditionally approves the Request as proposed for above-referenced site in accordance with 19.15.29 NMAC:

ROC must submit to the OCD a report of the corrective actions (including a CAP for groundwater) within 180 days.

Please be advised that OCD approval of this request does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have any questions regarding this matter, please contact me at 505-476-3489.

**Subject:** ROC - BD G-23 EOL (1R426-281) Initial Report of the Corrective Actions - Extension Request

Mr. Hansen,

RICE Operating Company (ROC) respectfully requests an extension to complete the BD G-23 EOL (1R426-281) corrective actions approved by the NMOCD on March 16<sup>th</sup>, 2012. Due to time restraints and resource management issues, ROC requests an additional 180 days to complete the approved work. Once the equipment is obtained and the corrective actions are completed, an initial report will be submitted to the NMOCD.

If you have any questions or require any additional information, please contact us.

Thank you,

Laura Peña  
Project Scientist  
RICE Operating Company

Corrective Action Plan (1R426-281) Approval**

Dear Mr. Conder:

The New Mexico Oil Conservation Division (OCD) has received the Corrective Action Plan for the BD G-23 EOL Site, dated March 16, 2012, and has conducted a review of the Plan. The Plan indicates that Rice Operating Company (ROC) has met the requirements of 19.15.29 NMAC (Rule 29; formerly, Rule 116) for a remediation plan. Therefore, the OCD hereby conditionally approves the Corrective Action Plan as proposed for above-referenced site in accordance with 19.15.29 NMAC:

ROC must submit to the OCD a report of the corrective actions (including a CAP for groundwater) within 180 days.

Please be advised that OCD approval of this plan does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have any questions regarding this matter, please contact me at 505-476-3489.
