Re: Application of Chesapeake Operating, Inc. for administrative approval of an unorthodox well location for its PLU Pierce Canyon 17 24 30 USA No. 1H well in the Bone Spring Pool Section 17, Township 24 South, Range 30 East, N.M.P.M., Eddy County, New Mexico.

Dear Ms. Bailey:

Chesapeake Operating, Inc. (OGRID No. 147179) hereby seeks administrative approval pursuant to the provisions of Division Rule 19.15.15.13 NMAC for an unorthodox well location for its PLU Pierce Canyon 17 24 30 USA No. 1H well to be located in Section 17, Township 24 South, Range 30 East, N.M.P.M., Eddy County, New Mexico. The proposed wildcat well is to be drilled at a surface location 237 feet from the South line with a projected penetration point 330 feet from the South line and 1980 feet from the West line of Section 17. The bottom-hole location will be 100 feet from the North line and 1980 feet from the West line of Section 17. A 162.49-acre project area has been dedicated to this horizontal well comprised of the E/2 W/2 of Section 17.

Exhibit A is a land plat for Section 17 and surrounding sections that shows the proposed non-standard location of the PLU Pierce Canyon 17 24 30 USA No. 1H in relation to adjoining units and existing wells. This location is unorthodox because the Bone Spring formation under this acreage is governed by the Division's statewide rules which provide for wells on 40-acre spacing units to be located no closer than 330 feet to the outer boundary of the spacing unit. The bottom-hole location of this well will be located 100 feet from the North line of Section 17 for engineering reasons, and is, therefore, closer to the section line than allowed by Division rules.

Exhibit B is the Well Location and Acreage Dedication Plat (Form C-102), which shows that the proposed PLU Pierce Canyon 17 24 30 USA No. 1H well encroaches on the spacing and proration unit to the North.

Exhibit C is a list of the affected parties. Pursuant to 19.15.4.12(A)(2)(c) NMAC, affected parties are those toward whom the non-standard location encroaches. Here, the proposed bottom-hole location encroaches to the North. The affected working interest is BOPCO, LP. A copy of this application with all attachments was mailed to the notice recipient.

Your attention to this application is appreciated.

Sincerely,

Adam G. Rankin

Re: Application of Chesapeake Operating, Inc. for administrative approval of an unorthodox well location for its PLU Pierce Canyon 17 24 30 USA No. 1H well in the Bone Spring Pool Section 17, Township 24 South, Range 30 East, N.M.P.M., Eddy County, New Mexico.

Ladies and Gentlemen:

Enclosed is a copy of the above-referenced application which was filed with the New Mexico Oil Conservation Division on this date by Chesapeake Operating Co. for administrative approval of an unorthodox well location for its PLU Pierce Canyon 17 24 30 USA No. 1H. The proposed wildcat well is to be drilled at a surface location 237 feet from the South line with a projected penetration point 330 feet from the South line and 1980 feet from the West line of Section 17. The bottom-hole location will be 100 feet from the North line and 1980 feet from the West line of Section 17.

As an owner of an interest that may be affected by the proposed well, you may object to this application. Objections must be filed in writing within twenty days from this date at the Division's Santa Fe office that is located at 1220 South Saint Francis Drive, Santa Fe, New Mexico, 87505. If no objection is received within this twenty-day period, this application for an unorthodox well location may be approved.

Sincerely,

Adam G. Rankin
