Re: Application for Unorthodox Well Location
Washington 33 State Well No. 52
API No. (30-015-40076)
2325' FNL & 465' FEL (Unit H)
Section 33, T-17 South, R-28 East, NMPM,
Eddy County, New Mexico

Dear Ms. Bailey:

Pursuant to Division Rule 19.15.15.13, Apache Corporation ("Apache") respectfully requests administrative approval of an unorthodox oil well location for its proposed Washington 33 State No. 52. This well will be drilled as a development oil well in the Artesia Glorieta-Yeso Pool (96830).

The proposed Washington 33 State No. 52 will be dedicated to a standard 40-acre oil spacing and proration unit in the Artesia Glorieta-Yeso Pool comprising the SE/4 NE/4 of Section 33.

The Artesia Glorieta-Yeso Pool is currently governed by Division Rule 19.19.15.9 which requires standard 40-acre oil spacing and proration units with wells to be located no closer than 330 feet to the outer boundary of the spacing unit.

The attached vicinity map shows that the proposed unorthodox well location is necessary in order to avoid an existing pipeline.

The affected offset acreage is the NE/4 SE/4 of Section 33. There is currently no production from the Artesia Glorieta-Yeso Pool within this tract, however, Apache has obtained permits to drill and will develop this tract in the near future. Please note that the Glorieta-Yeso working interest ownership between the SE/4 NE/4 and the NE/4 SE/4 of Section 33 is common throughout and is owned 100% by Apache. Consequently, notice of this application is not required to any party.

Attached is a Form C-102 showing the proposed well, spacing unit and the affected offset acreage. Also attached are vicinity maps.

In summary, approval of the application will provide Apache Corporation the opportunity to develop the oil and gas reserves from the Artesia Glorieta-Yeso Pool underlying the SE/4 NE/4 of Section 33, thereby preventing waste, and will not violate correlative rights.

If you should have any questions, please call me at (505) 690-9453.

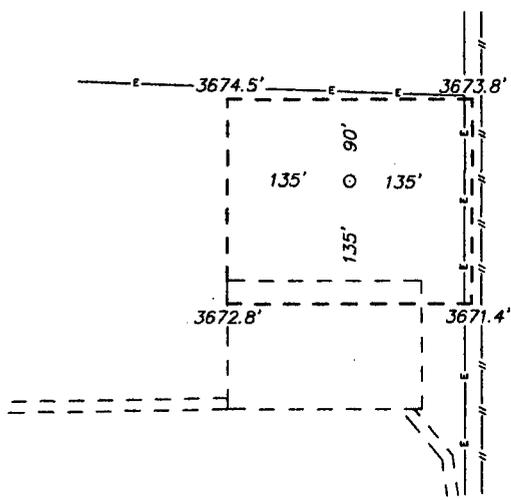

Sincerely,

David Catanach, Agent
