**Subject:** RE: Administrative Order SWD - 1269 30-015-29602

Hello Dean,

It seems this permit was set to expire after one year and I find no extension granted and am not aware of any request floating around here that was received prior to the expiration date. I can't find correspondence covering an extension in the permit file or the well file.

So it seems this permit has expired Ipso-facto.

Thank You,

Will Jones

**Subject:** Administrative Order SWD - 1269

Mr. Jones

I am inquiring as to the status of the subject. My research indicates that the administrative order has terminated due to lack of injection operations. However I am unable to identify if Mesquite SWD timely filed for an extension. The SWD well involved is the Heavy Metal 12 Federal #1 (30-015-29602).

Any information you have on this would be greatly appreciated.

Thank you,
