William L. Irwin
Unocal Oil and Gas Division
3300 North Butler Avenue
Suite 200
Farmington, NM 87401

Dear Mr. Irwin:

Union Oil Company of California (UNOCAL) submitted an application for permission to commingle production downhole from the Blanco Mesaverde and Basin Dakota formations in the following well:

No. 129M Rincon Unit
1035' FSL, 805' FEL
sec. 29, T. 27 N., R. 6 W.
Rio Arriba County, New Mexico

The referenced well was completed in October, 1992 as a multiple completion in both the Mesaverde and the Dakota formations. Well conditions supportive of downhole commingling of production have been met in the referenced well.

The allocation factors contained in the application (GAS PRODUCTION, Mesaverde 73%, Dakota 27%; OIL PRODUCTION, Mesaverde 0%, Dakota 100%) were reviewed and found to be accurate.

Your application is hereby approved as submitted, effective October 2, 1992. Please follow New Mexico Oil Conservation Division (NMOCD) guidelines for reporting allocated production on Form 3160.

If you have any questions regarding this approval, please contact Ray Hager at (505) 599-8959.

Sincerely,

/s/ Duane Spencer
