Mike,

Per our conversation this afternoon...

We discussed that the Achen Frey Battery was at acceptable closure levels. Per your approval, Yates Petroleum will complete backfill of location and submit final C-141 reports for 2RP-1075 and 2RP-1117 once backfill is complete.

Per your approval, at the Cigarillo SWD #1, Yates Petroleum will complete backfill of location and submit a final C-141 report for 2RP-849 once backfill is complete.

Thank you for your time,

Amber Cannon
