Re: Application of Chesapeake Operating, Inc. for administrative approval of an unorthodox well location for its PLU Phantom Banks 25 25 30 USA 1H well in Section 25, Township 25 South, Range 30 East, N.M.P.M., Eddy County, New Mexico.

Dear Ms. Bailey:

Chesapeake Operating, Inc. (OGRID No. 147179) hereby seeks administrative approval pursuant to the provisions of Division Rule 19.15.15.13 NMAC for an unorthodox well location for its PLU Phantom Banks 25 25 30 USA 1H well to be located in Section 25, Township 25 South, Range 30 East, N.M.P.M., Eddy County, New Mexico. The proposed well is to be drilled horizontally at a surface location 150 feet from the South line with a penetration point 330 feet from the South line and approximately 2,280 feet from the West line of Section 25. The bottom-hole location will be at an unorthodox location 100 feet from the North line and 1,980 feet from the West line of Section 25. A 160-acre project area has been dedicated to this horizontal well comprised of the E/2 W/2 of Section 25.

Exhibit A is a land plat for Section 25 and surrounding sections that shows the proposed non-standard location of the PLU Phantom Banks 25 25 30 USA 1H well in relation to adjoining units and existing wells. This location is unorthodox because the formation under this acreage is governed by the Division's statewide rules which provide for wells on 40-acre spacing units to be located no closer than 330 feet to the outer boundary of the spacing unit. The bottom-hole location of this well will be located 100 feet from the North line of Section 25 for engineering reasons, and is, therefore, closer to the section line than allowed by Division rules.

Exhibit B is the Well Location and Acreage Dedication Plat (Form C-102), which shows that the proposed PLU Phantom Banks 25 25 30 USA 1H well encroaches on the spacing and proration unit to the North.

Exhibit C is a list of the affected parties. Pursuant to 19.15.4.12(A)(2)(c) NMAC, affected parties are those toward whom the non-standard location encroaches. Here, the proposed bottom-hole location encroaches on the spacing and proration unit to the North. The affected lessee is BOPCO, L.P. A copy of this application with all attachments was mailed to the notice recipient.

Exhibit D is a letter signed from BOPCO, L.P. waiving all objections to the encroachment by the PLU Phantom Banks 25 25 30 USA 1H well.

Your attention to this application is appreciated.

Sincerely,

Dear Adam

Can you advise me of the target formation for this well? I have been unable to find a description of the wildcat pool identified on your attached Form C-102 that associates it with a formation.

Sincerely

David
