Dear Mr. Bailey:

Your application to commingle the above captioned well was received on April 25, 1994. Your application requests our approval to downhole commingling production from the Upper Glorieta Formation and the Upper Blinbry Formation in the New Mexico "G" State Well No. 1 located 650' FSL & 550' FWL. of Section 2-21S-36E.

Since it appears that all the New Mexico Oil Conservation Division rules and regulations have been complied with and there will be no loss of revenue to the State of New Mexico as a result of your proposed operation, your request for downhole commingling is hereby approved. Any deviation from the substance of your request will be sufficient grounds for rescinding our approval. Our approval is subject to like approval by the New Mexico Oil Conservation Division.
