ADMINISTRATIVE ORDER DHC-1091

Meridian Oil Company
P.O. Box 4289
Farmington, New Mexico 87499-4289

Attention: Thomas E. Mullins

*Largo Federal Well No.1A
Unit C , Section 34, Township 29 North, Range 9 West, NMPM,
San Juan County, New Mexico.
Aztec Pictured Cliffs (Gas) and Blanco Mesaverde (Prorated Gas) Pools*

Dear Mr. Walker:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations to permit the subject well to commingle production from both pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the two zones is hereby placed in abeyance.

In accordance with the provisions of Rule 303-C-4., total commingled oil production from the subject well shall not exceed 20 barrels per day, and total water production shall not exceed 40 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by Division Rules and Regulations or by the gas allowable for each respective prorated pool as printed in the Division's San Juan Basin Gas Proration Schedule.

Proper allocation of the production from the subject well shall be on the following basis:

Aztec Pictured Cliffs (Gas) Pool	Oil 0%	Gas 50%
Blanco Mesaverde (Prorated Gas) Pool	Oil 100%	Gas 50%

FURTHER: The operator shall notify the Aztec District Office of the Division upon implementation of the commingling process.
