Re: Application of Yates Petroleum Corporation for administrative approval of a 389.64-acre non-standard gas spacing unit for its Chesney State Unit Well No. 2 Irregular Section 2, Township 11 South, Range 35 East, NMPM, Lea County, New Mexico.

Dear Mr. Fesmire:

Yates Petroleum Corporation, pursuant to the provisions of Division Rule 104 D (2)(b) and (c) adopted on January 18, 1996, hereby seeks administrative approval of a 389.64-acre non-standard gas spacing and proration unit for the Chesney State Unit Well No. 2 to be drilled to test the Mississippian formation from a surface location 750 feet from the South line and 1650 feet from the East line in the SE/4 of Irregular Section 2, Township 11 South, Range 35 East, N.M.P.M., Lea County, New Mexico.

Yates well will be drilled as a wildcat well to test the Mississippian formation which is developed on 320-acre spacing pursuant to the general rules of the Division.

This non-standard gas spacing and proration unit is necessary because of a variation in the legal subdivision of the United States Public Land Surveys. This unit is comprised of contiguous lots which lie wholly within a single governmental section and are joined by a common side. Attached is a plat which shows the subject spacing unit and all adjoining spacing units or leases.

Since this non-standard spacing and proration unit comprises all of Section 2, there are no owners in the mineral estate who are excluded from this non-standard unit and no notice is required pursuant to Division Rule 1207A(3).

HOLLAND & HART^{LLP}

Your attention to this application is appreciated.

Very truly yours,

Ocean Munds-Dry

Ocean Munds-Dry
Attorney for Yates Production Company
