**Re: Request for Amendment of Surface Commingling Order CTB-442
Harris State (Lse #K-362), State II-23 (Lse #OG5084), New Mexico E State
(Lse # OG 671), Sections 23 & 26, Lea County, New Mexico**

Attn: Mr. David Catanach

Dear David:

Penroc Oil Corporation is requesting an amendment to the captioned by adding its New Mexico E State Lease to the previously approved surface commingling order # CTB-442. New Mexico E State Lease is 100% WI and has State mineral ownership just like the Harris State and State II-23.

All above are stripper leases and it makes economic sense to commingle the production by using the State II-23 battery, thereby increasing life of production, benefiting the State of New Mexico as well as Penroc Oil. Following are additional details:

Operator: Penroc Oil Corporation
OGRID: 017213
Well Names: Harris No. 1, 2, 3 Y
& 4; State II-23 1, 2, 3, 4, 5 & 6; New Mexico E State 1, 2, 3, 4 & 5

The leases will be commingled as shown on the attached sketch. Wells will be tested via the header system and test separator.

Working Interest in all leases: 100% Penroc Oil Corporation

Royalty Interest in all leases: 12.5% State of New Mexico

Field: Mescalero San Andres, Producing Zone: San Andres

A copy of this application is being sent to New Mexico State Land Office. An early approval of the same will be greatly appreciated.
