New Mexico Oil Conservation Division 1220 South St. Francis Drive Santa Fe, New Mexico 87505 Attn: Michael Stogner

Re: Apache 25 Federal #16 Section 25-T22S-R30E Eddy County, New Mexico

Gentlemen:

Devon Energy Production Company, L.P. (Devon), as Operator, intends to drill the referenced Morrow test well to a depth of approximately 13,900°. Devon initially attempted to stake and permit this well at an orthodox location in the SW/4 of Section 25. However, due to the proximity of the location to an existing LMR and potential Potash resources, the Bureau of Land Management (BLM) has required Devon to move the location. The closest drillable location as approved by the BLM is located 2310° FSL & 1980° FWL which is an unorthodox location as it is closer than 660° to the outer boundary of the designated spacing unit pursuant to existing pool rules.

Inasmuch as this well will be producing from an unorthodox location from that permitted by existing pool rules, Devon respectfully requests that the Commission administratively approve this application for an unorthodox location in accordance with Division Rule 104(F)(3). This unorthodox location affects only the leasehold owner in the adjoining spacing unit in the N/2 of Section 25. Devon is the owner of 100% of the Record Title of Federal Lease NM 89052 which covers the N/2 Section 25, among other lands. Therefore, no additional notification of this application should be required, as this unorthodox location will affect Devon leasehold only.

Attached you will find a land plat reflecting Devon as the only affected party, a Morrow sand structure map, and a State of New Mexico form C-102.

If there are any questions or if additional information is required feel free to call me at (405) 552-4633.

Yours very truly,

DEVON ENERGY PRODUCTION COMPANY, L.P.

RECEIVED

JUL 2 8 2005

Gentlemen:

OIL CONSERVATION DIVISION

Devon Energy Production Company, L.P. (Devon), as Operator, intends to drill the referenced Morrow test well to a depth of approximately 13,900'. Devon initially attempted to stake and permit this well at an orthodox location in the SW/4 of Section 25. However, due to the proximity of the location to an existing LMR and potential Potash resources, the Bureau of Land Management (BLM) has required Devon to move the location. The closest drillable location as approved by the BLM is located 2310' FSL & 1980' FWL which is an unorthodox location as it is closer than 660' to the outer boundary of the designated spacing unit pursuant to existing pool rules.

Inasmuch as this well will be producing from an unorthodox location from that permitted by existing pool rules, Devon respectfully requests that the Commission administratively approve this application for an unorthodox location in accordance with Division Rule 104(F)(3). This unorthodox location affects only the leasehold owner in the adjoining spacing unit in the N/2 of Section 25. Devon is the owner of 100% of the Record Title of Federal Lease NM 89052 which covers the N/2 Section 25, among other lands. Therefore, no additional notification of this application should be required, as this unorthodox location will affect Devon leasehold only.

Attached you will find a land plat reflecting Devon as the only affected party, a Morrow sand structure map, and a State of New Mexico form C-102.

If there are any questions or if additional information is required feel free to call me at (405) 552-4633.
