Dear Mr. Liggett:

The Farmington District Office (FDO) of the Bureau of Land Management (BLM) has received your letter dated December 7, 1995, for downhole commingling of the Blanco Mesaverde and Basin Dakota Pools in the above referenced well.

You stated in your application that test data will be used in determining the allocation factor for each formation. Please make sure that condensate production is addressed when you submit the allocation formulas for this well.

Approval to downhole commingle is granted, however we do request that once determined, that the allocation factor be submitted.

If you have further questions regarding this matter, please contact Brian W. Davis at (505) 599-6367 or (505) 599-8900.

Sincerely,

/s/ Duane Spencer
