Describe Area Affected and Cleanup Action Taken.*
Location surrounded by earthen berm no fluid released

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: RE: Nash 49H, API: 30-0105-38663

Good Morning Ms. Warren,

Oil was contained inside 2 frac tanks, and gas was on location, but the volume of gas on location was consumed by fire. Please let me know if there is anything else I can help you with.

Thanks,

Jennifer Thames

Good morning Jennifer,

Today we received a C-141 Release Notification and Corrective Action form from you. I was wondering if you could tell me what was released with this "Fire"? Was it gas or oil? Thank you for your time.
