**Subject:** Schled Fed. Battery Spill

On 8-23-10 at 8:00am the produced water tank ran-over at the Schley Fed. Battery. This was caused by an electrical problem with the water transfer pump. 40bbbls of produced water was released and 35bbbls were recovered and disposed. This battery has a dike, but the water ran under the dike into the old pit area. The contaminated area is 15' X 300'. The electrical problem was fixed and the pump returned to service. We will await instructions from HSE before performing any cleanup of the area. GPS, legal description, and driving directions below.

Schley Fed. Tank Battery  
Sec29-T17S-R29E  
Eddy Co., NM29281

N 32\* 48.162'  
W 104\* 05.895'

East of Artesia on Hwy 82 to CR 210, T/S .5 mi, T/W .25 mi, .15 mi to Schley Fed. Battery.

Thanks,

Rick Wright
