Describe Cause of Problem and Remedial Action Taken.* Pin hole in pipe body. Switched valves so flow stopped. Called vacuum truck to pick up fluid.		
Describe Area Affected and Cleanup Action Taken.* .75' x 27' x 156'. Vacuum truck picked up 30 Bbbls of BS & W. Further remediation will be performed in accordance with a NMOCD approved remediation plan.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Amy

The above referenced C-141s were received in District 1 on December 20, 2012. The spills were discovered on December 1 and 2, so the C-141s should have been submitted by the 16<sup>th</sup> and 17<sup>th</sup> respectively. However, and more importantly, both of the above referenced sites are in District 2. Please resend the C-141s to Mike Bratcher, Environmental Specialist, NMOCD-District 2. Thank you .
