By Whom?	Mike Stubblefield with Talon LPE	Date and Hour	01/09/13 9:30 am		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	N/A		

If a Watercourse was Impacted, Describe Fully.*
N/A

Describe Cause of Problem and Remedial Action Taken.*
Transfer pump failed, tanks filled and overflowed water tank.
Release was contained in earth berms until berms were breached.
Standing fluid was recovered.

Describe Area Affected and Cleanup Action Taken.*
The affected area was located inside the bermed area of the tank battery, impacted area outside the battery measured approx 270' long x 80' wide.
The soils in the area include silty soils under lain by gypsum and caliches.
A hydrovac will be utilized to remove the impacted material around lines located with-in tank battery.
Talon/ LPE has been contracted to sample impacted area and will construct a work plan for submittal to OCD.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: Notification for release >25 bbls at the Lime Rock Resources, LLC Logan State No.2 tank battery.

Dear Mr. Bratcher,

On 1/9/2013, during AM, a release greater than 25 bbls occurred at the Lime Rock Resources, LLC Logan State No.2 tank battery. The release was located with-in the bermed area of the tank battery, the berm ruptured letting produced water off the location. Initial actions are being taken to recover any standing fluids. Please contact me if further information is required.
