Dear Ms. Bailey:

On behalf of Logos Resources LLC ("Logos") and pursuant to Division Rule 19.15.15.11.B(2) (a) and (b) and the applicable rules governing the acreage and well location requirements for the Basin-Mancos Gas Pool (97232; Order No. R-12984), we request administrative approval for a 40-acre  $\pm$  non-standard oil spacing and proration unit comprised of the SE/4 SE/4 of Section 4, Township 23 North, Range 8 West, NMPM.

In addition, Logos seeks approval of an unorthodox well location for its Logos Well No. 5 to be located 671' from the south line and 973' from the east line of Section 4, T23N, R8W NMPM in San Juan County. This well will be drilled to a depth sufficient to test the Mancos and Basin-Dakota formations within the current horizontal boundaries of the Basin-Mancos Gas Pool.

Logos seeks an exception from the applicable acreage dedication and well location rules for the following reasons: Order No. R-12984 established special pool rules for the Basin-Mancos Pool as a gas pool with 320 acre spacing units and well location setbacks of 660'. The special pool rules also provide that oil wells located within two miles of certain Gallup oil pools or associated pools identified in Order No. R-12984 are to be drilled and spaced in accordance with the rules applicable to those pools. The spacing unit proposed in this case is located immediately adjacent to the Nageezi-Gallup Oil Pool (47540). The current rules for both that pool reflect statewide rules and provide that wells shall be located no closer than 330' to the boundary of a unit, with 40-acre units dedicated to the wells. However, neither of these pools is among the pools specified in Order No. R-12984 and therefore, the Division has advised that the rules for the pool may not be extended to the proposed spacing unit and well location. Therefore, this application for exception is made necessary.

This proposed well is no closer than 330' to the outer boundary of the SE/4 SE/4 of the section and otherwise complies with statewide acreage dedication and locational rules applicable to oil wells. The unit and well location are also consistent with the established development pattern for Mancos oil wells in the area. The 3160-3 APD along with the C-102 plat showing the SE/4 SE/4 spacing unit (S/2 for the Basin-Dakota) and the proposed location for the Logos Well No. 4 are attached as Exhibits A and B.

Logos Resources LLC owns and operates all of Section 4 T23N R8W under a single federal lease (NMNM-109398). Royalty and overriding royalty interests in the S/2 of Section 4, including the SE/4 SE/4 of the section are uniform. The Bureau of Land Management is being notified of this application, but no further notification is indicated under Division Rules 19.15.4.12 A(2) and (3) (Exhibit C).

The Division's Administrative Application Checklist is enclosed.

Thank you for your consideration of this request. Should more information be required, please do not hesitate to contact me.
