Re: Unit Petroleum Company, Gourley Federal 003Q Pit Closure Procedures

Dear Mr. Guye;

Below are procedures to finish the pit closure at the above location per the original C-144 Form as approved April 23, 2007. Some of the work has previously been completed per the original closure plan.

I have included a new C-144 Form with applicable information from the previous form per your instructions in our telephone conversation of December 30, 2008.

Work previously completed:

Sweatt Construction has completed the trench burial of the pit contents and pit liner in a 12 mil plastic lined trench. The trench has been capped with a 20 mil plastic liner.

The pit bottom has been delineated (soil sample analysis attached).

Work to be completed:

1. Backfill the pit area.
2. Cap the pit area with a 20 mil plastic liner.
3. Cover the trench and pit backfill area with 3 feet of native soil capable of supporting native plant growth.
4. The pit area will be contoured to prevent erosion or ponding of rainwater at the site.

For additional information, please contact me via any method below.

Respectfully submitted,

For temporary pits, closed-loop systems, and below-grade tanks, submit to the appropriate NMOCD District Office.
For permanent pits and exceptions submit to the Santa Fe Environmental Bureau office and provide a copy to the appropriate NMOCD District Office.

**Pit, Closed-Loop System, Below-Grade Tank, or
Proposed Alternative Method Permit or Closure Plan Application**

Type of action: ☐ Permit of a pit, closed-loop system, below-grade tank, or proposed alternative method
☒ Closure of a pit, closed-loop system, below-grade tank, or proposed alternative method
☐ Modification to an existing permit
☐ Closure plan only submitted for an existing permitted or non-permitted pit, closed-loop system, below-grade tank, or proposed alternative method

Instructions: Please submit one application (Form C-144) per individual pit, closed-loop system, below-grade tank or alternative request

Please be advised that approval of this request does not relieve the operator of liability should operations result in pollution of surface water, ground water or the environment. Nor does approval relieve the operator of its responsibility to comply with any other applicable governmental authority's rules, regulations or ordinances.
