Re: Application of Encana Oil & Gas (USA) Inc. for administrative approval of an 80-acre non-standard spacing unit in the Basin-Mancos Gas Pool (97232), approval of an non-standard location in the Basin-Mancos Gas Pool, and approval of downhole commingling of production from the Bisti Lower-Gallup Pool (5890) and the Basin-Mancos Gas Pool (97232), Section 33, Township 24 North, Range 9 West, N.M.P.M., San Juan County, New Mexico.

Dear Ms. Bailey:

Encana plans to drill its **Escrito D34-2409 01H** (API No. 30-045-35440) as a horizontal well in the N/2 N/2 of Section 33, T-24-N, R-9-W in San Juan County, New Mexico, from a surface location in Unit D of adjacent Section 34 to a bottom hole location in Unit D of Section 33. *See Exhibit A* (Amended C-102). The N/2 NE/4 of Section 33 is located in the Basin-Mancos Gas Pool (Pool Code 97232) and subject to Special Rules created under Order R-12984. The N/2 NW/4 of Section 33 is located in the Bisti Lower-Gallup Oil Pool (Pool Code 5890) and subject Special Rules as amended under Order R-1069-H.

The Special Rules applicable to the Bisti Lower-Gallup Oil Pool require 80-acre spacing units and 330 foot setbacks from the outer boundary of the spacing units. *See* Rules 2 and 3 of the Special Rules (as amended by R-1069-H). However, since the Bisti Lower-Gallup Oil Pool is an unlisted oil pool under Order R-12984, the portion of the proposed horizontal wellbore in the N/2 NE/4 is subject to the Special Rules for the Basin-Mancos Gas Pool. *See* Appendix A to Order R-12984 (special rules) at Rule 1. These Special Rules require 320-acre spacing units and 660 foot setbacks from the outer boundary of the spacing units. *Id.* at Rule 2. Since the completed interval for Encana's proposed well will be 330 feet from the East line and 585 feet from the North line, it does meet setback requirements applicable to the N/2 NE/4 of Section 33.

A vertical well producing from the Bisti Lower Gallup Oil Pool is located in the NE/4 NW/4 of Section 33 (Ohwada Well No. 2, API No. 30-045-29112). An 80-acre spacing and proration unit comprised of the N/2 NW/4 is dedicated to this existing well. Therefore, in order to form a 160-acre project area for a horizontal well comprised of the N/2 N/2 of Section 33, Encana requires approval of the following:

June 13, 2013

Page 2

- (1) a non-standard 80-acre spacing and proration unit in the Basin-Mancos Gas Pool comprised of the N/2 NE/4 of Section 33;
- (2) a non-standard location for the portion of the proposed horizontal wellbore located in the N/2 NE/4 of the Basin Mancos Gas Pool; and
- (3) down-hole commingling of the production from these two adjacent pools in the horizontal wellbore.

Approval of this application will allow Encana to efficiently and effectively drain the reserves in the N/2 N/2 of Section 33.

In addition to the Amended C-1-2 form included as **Exhibit A**, Encana provides the following additional exhibits with this letter:

Exhibit B is land plat showing the leases and leaseholders in the affected areas.

Exhibit C is a completed form C-107-A (application for downhole commingling).

Exhibit D is a list of the parties in the E/2 of Section 33 affected by Encana's requests for a non-standard spacing unit in the Basin Mancos Gas Pool, as well a list of the parties in the SE/4 of Section 28, the SW/4 of Section 27 and the NW/4 of Section 34 affected by the request for a non-standard location in the Basin Mancos Gas Pool. With respect to the request for downhole commingling, the ownership in the project area is the same except for the overriding interests. Accordingly, Exhibit D contains a list of these affected parties and includes the BLM field office since two federal leases are included in the proposed spacing unit. *See* NMAC 19.15.12.11.C(1)(c).

A copy of this application with all attachments has been sent by certified mail to the affected parties set forth in Exhibit D advising them that if they have an objection they must file it in writing with the division within 20 days from the date the division receives this application.

Your attention to this application is appreciated.

Sincerely,

Michael H. Feldewert
