condensate dumping into tanks at high pressure – blowing out of the top faster than it could equalize into next tank

when we get our 50 MMCFD plant running in Culberson County this should stop

Describe Area Affected and Cleanup Action Taken.*

called out a vacuum truck to recover what we could – will haul contaminated gravel to Lea Land LLC and replace with non-contaminated gravel

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Good Morning Terry.

I was wondering if you had the C-141 for this release yet? We don't seem to have it in our possession yet.

If you would get back with myself, or Mike Bratcher that would be great.

I hope you are having a great day.

Jean-Marie Warren

5/23/13 - Called & spoke w/ Terry.
He advised me that he works in
Texas now - but it was his report
She will get it to us. *Jm*
