Describe Cause of Problem and Remedial Action Taken.\*

A 4 inch poly flowline was damaged when CVE Electric Co. drilled to place a power pole and drilled through the line. The volume of the leak was 3 bbls of oil and 12 bbls of produced water. Talon/LPE was contracted to perform an initial site assessment and soil sampling. Upon receipt of analytical results from the soil sampling activities a work plan will be drafted and remedial activities will begin upon its approval.

Describe Area Affected and Cleanup Action Taken.\*

The affected area is approximately 40' X 20'. This area includes impacts on the location and pasture land.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOC D rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOC D marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOC D acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Thank you Chris, I received 2 release notifications. Can you tell me the location information of the Roo 22-1? S/T/R or API #? I would appreciate it. I am trying to gather information so that I am prepared with the location. Thanks.  
Have a great week.  
Jean
