Re: Remediation of Spill at Oxy USA – SDS 11 Federal #1  
UL'M' Sec. 11 T24S R31E Eddy County  
API# 30-015-27627

Mrs. Sherry Bohnam,

Elke Environmental was contracted by Oxy USA to complete the remediation of the spill at the SDS 11 Federal #1. The initial C-141 was submitted to the NMOCD on July 3, 2008. An initial delineation was performed on July 11, 2008. As per the conversation between Kelton Beaird (Oxy USA) and Sherry Bohnam (NMOCD) verbal approval to complete the remediation plan was given. The work plan in the C-141 was completed and a plat map, analytical report and pictures are attached. If you have any questions about the enclosed report please contact me at the office.

Sincerely,

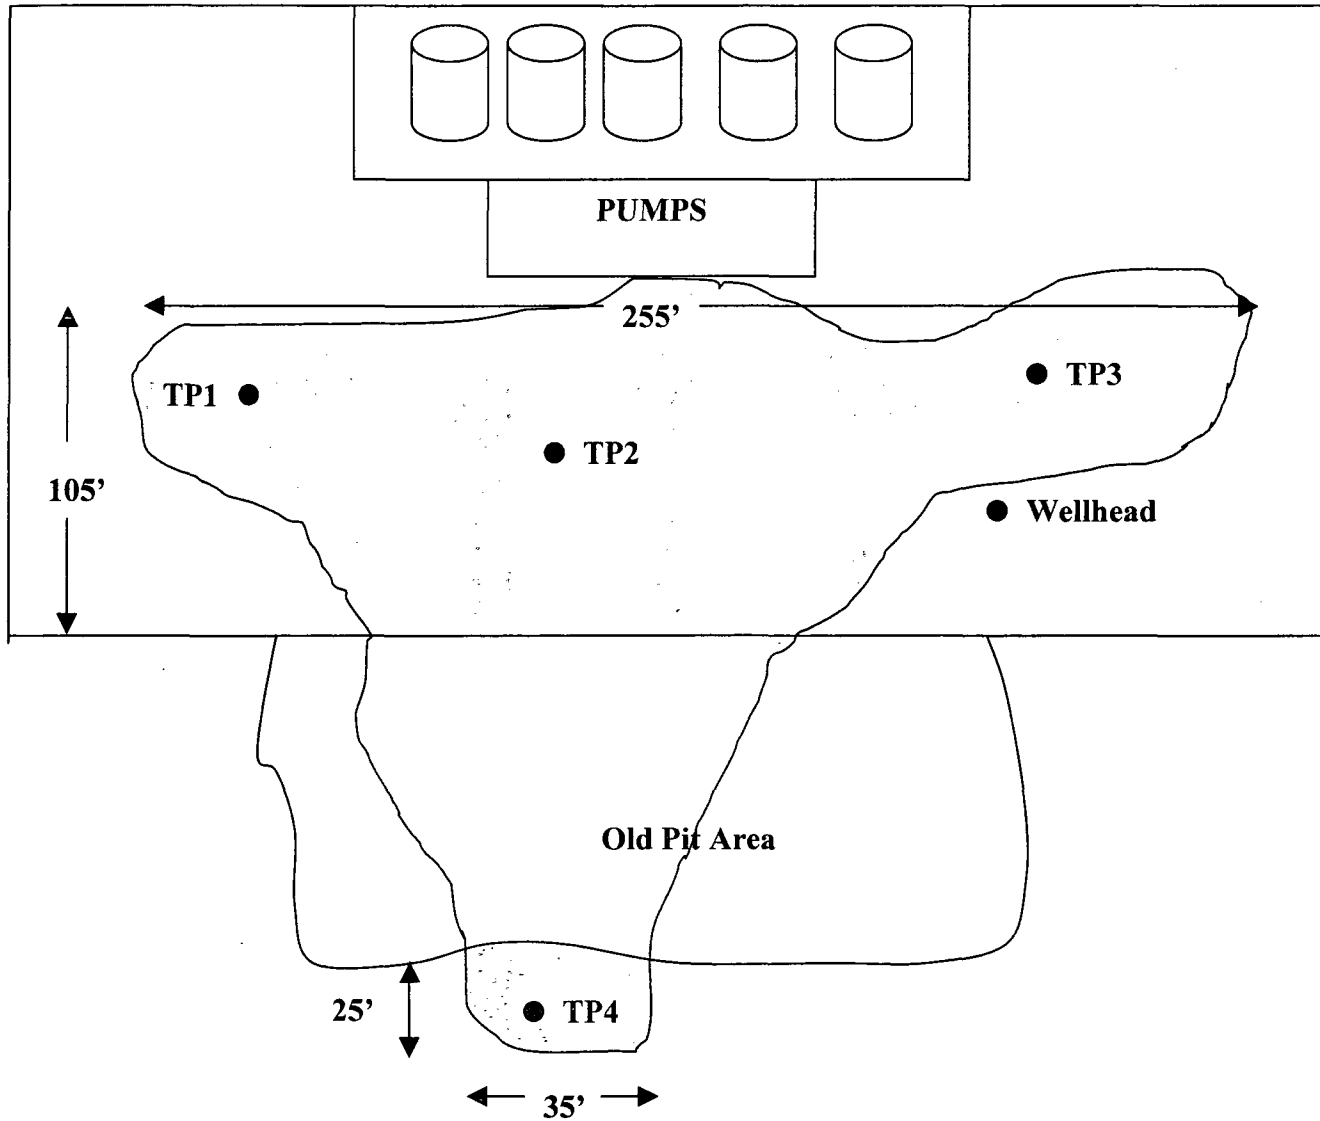

A handwritten signature in black ink, appearing to read 'Logan Anderson', with a stylized, flowing script.

Logan Anderson

Fluids picked up by vacuum truck and will formulate remediation work plan.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
