Describe Cause of Problem and Remedial Action Taken.\*

Frontier shut in sales line due to pipeline issues causing Chevron to curtail gas at the battery. Expect Frontier to be down for 2-4 days to repair line.

Describe Area Affected and Cleanup Action Taken.\*

Shut in wells to minimize flaring. Chevron will stay in close contact with frontier so we can stop flaring as soon as they are able to accept our gas in the sales line.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOC D rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOC D marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOC D acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Mike,

Here are the Initial C-141 reports for the flaring at our Skelly 907, Skelly 940 & TexMack Batteries due to Frontier shutting in our sales line. Flaring started at 10:00AM on 6/4/13. They expect to be down from 2-4 days. Once the sales line is back up and we are no longer flaring I will send the final reports.

Regards,

**David A. Pagano**
