Re: **San Juan 28-7 Unit:**
Five Applications for Approval of Downhole Commingling
of Mesaverde and Dakota Production in Currently Dual
Producing Wells No. 133M, 135M, 181M, 193M, and 221M

Dear Mr. LeMay:

Conoco proposes to downhole commingle Mesaverde and Dakota production in the subject five San Juan 28-7 Unit wells. Attached are copies of Conoco's applications requesting approval under the guidelines of the recently rewritten OCD Rule 303 and using the newly issued OCD Form C-107-A.

Approximately one year's production history is now available for these five wells. Extensive history and study of the Mesaverde and Dakota Pools and model projections have shown that, after the first three months of production, the typical decline patterns of Mesaverde and Dakota producers, while hyperbolic in their early life, are parallel in their decline patterns and rapidly stabilize at very shallow declines for the majority of their production history. Therefore, it is equitable to establish fixed percentages allocation formulas for downhole commingling these wells which should remain valid for the life of the well.

The gas rates used for calculating the formulas were the January, 1996 producing rates from the Projected Gas Production curves and the corresponding oil rates, which were quite small in most cases, were calculated from oil yields (BO/MCFG) based on cumulative oil production.

Also attached is a copy of the certified mailing list of all offset operators and all working and royalty interest owners for the Mesaverde and Dakota Participating Areas of the San Juan 28-7 Unit. Copies of these five applications were mailed to all parties on these lists on April 3, 1996.

If I can be of any further help, please contact me at (915) 686-6548. Thank you for your help in this matter.

Very truly yours,

Jerry W. Hoover
Sr. Conservation Coordinator

Ground level Elev. 6799	Producing Formation Blanco Mesaverde	Pool Blanco Mesaverde	Dedicated Acreage: 320 Acres W/2	

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interest of all owners been consolidated by communitization, unitization, force-pooling, etc.?
- ☐ Yes ☐ No If answer is "yes" type of consolidation _____

If answer is "no" list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.)

No allowable will be assigned to the well until all interests have been consolidated (by communization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interest, has been approved by the Division.
