Describe Cause of Problem and Remedial Action Taken.*
A 1/2" valve on the wellhead was accidentally opened, the valve handle was removed and the valve was plugged.

Describe Area Affected and Cleanup Action Taken.*
Spill affected area approximately 4800 sq. ft. on the caliche well pad. The impacted soil was scraped up and stockpiled on site. The spill was delineated by Diversified Field Services, Inc. Samples were submitted to a commercial lab for analyses. Impacted soils were removed to a NMOCD approved disposal facility. A liner was installed. The excavation was backfilled and the site was contoured to the surrounding landscape.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
