Ike,

OCD concurs with BLM approval of the remediation proposal for the Skelly 968 Battery. OCD tracking number for this release is 2RP-2060. Please advise in the event proposed excavation depths are not achieved, and/or if a liner is installed.

Ike,

The cleanup plan for the Skelly 968 flowline release is approved as written.

The cleanup plan for the Tankless 35 Fed 1 release is approved with this stipulation. While the trench is dug ensure you reach closure levels before a liner is set.

Thanks
