**RECEIVED**

Describe Cause of Problem and Remedial Action Taken.\*  
A valve was left open on the circulating pump to the sump suction line causing the sump to overflow. Valves were aligned in the correct position.

Describe Area Affected and Cleanup Action Taken.\*  
The spill impacted approximately 1355 sq.ft. of mostly pasture area. The free standing fluid was recovered, the stained soil was left as is pending remediation. The impacted area will be cleaned up in accordance to the NMOCD and BLM guidelines.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
