Release Notification and Corrective Action ☐ Final Report *NAB* | 42 | 8325 | 3 Name of Company: BOPCO, L.P. **OPERATOR** ☐ Initial Report Contact: Tony Savoie Telephone No. 575-887-7329 Address: 522 W. Mermod, Suite 704 Carlsbad, N.M. 88220 Facility Name: Poker Lake Unit 423 Tank Battery Facility Type: Exploration and Production API No. 30-015-40710 Mineral Owner: Federal Surface Owner: Federal LOCATION OF RELEASE Unit Letter Feet from the North/South Line Feet from the East/West Line County Section Township Range I 19 25S 30E 1750 South 880 East Eddy Latitude N 32.113234 Longitude W 103.915246 NATURE OF RELEASE Volume of Release: 140 bbls of Volume Recovered: 100 bbls of crude oil Type of Release: Crude oil and produced water crude oil and 280 bbls of and 220 bbls of produced water produced water Date and Hour of Occurrence: Date and Hour of Discovery: 7/28/14 at Source of Release: Failed gasket on hatch cover on the free water knock 7/27/14 time unknown approximately 9:00 a.m. If YES, To Whom? Was Immediate Notice Given? Mike Bratcher NMOCD and Jim Amos BLM By Whom? Date and Hour: 7/28/14 at 3:08 p.m. Was a Watercourse Reached? If YES, Volume Impacting the Watercourse. ☐ Yes ☐ No If a Watercourse was Impacted, Describe Fully.* Describe Cause of Problem and Remedial Action Taken.* A gasket failed on the man way cover on the free water knock out. The production was switched out of the vessel and vacuum trucks were dispatched to the location. Describe Area Affected and Cleanup Action Taken.* The spill impacted approximately 8,616 sq.ft. of earthen containment area around the process equipment, approximately 200 sq.ft. of pad area, and approximately 800 sq.ft. of pasture area on the west side of the pad area where the containment breached. All of the free standing fluid was recovered and placed back into the production tanks. A remediation crew "EPI" began removing the saturated soil from around the process equipment and stockpiling soil on-site. On 7/31/14 a backhoe was used to collect samples for vertical extent in six areas around the process area. Crews area still removing the impacted soil, this will continue until the impacted area complies with the NMOCD and BLM remediation guidelines. A closure report will be submitted following the remediation efforts. I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
