NATURE OF RELEASE

Type of Release Produced water	Volume of Release 35bbls	Volume Recovered 30bbls
Source of Release Water tank	Date and Hour of Occurrence 04-06-2014	Date and Hour of Discovery 04-06-2014 12:00pm
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Geoffery R. Leking - NMOCD	
By Whom? Michelle Mullins	Date and Hour 04-07-2014 07:23am	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

A valve on the water tank was unable to seal due to trash in the valve. We replaced the valve and checked for a good seal.

Describe Area Affected and Cleanup Action Taken.*

Initially 35bbls of produced water were released. We were able to recover 30bbls of produced water with a vacuum truck. All free fluids have been recovered. Concho will have the spill site sampled to delineate any possible contamination from the release and we will present a remediation work plan to the NMOCD for approval prior to any significant remediation work.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
