**NATURE OF RELEASE**

Type of Release: Produced water	Volume of Release: 400 bbls	Volume Recovered: None
Source of Release: 8" lay flat frac hose	Date and Hour of Occurrence 8/20/14 between 3:30 a.m. and 5:30 a.m.	Date and Hour of Discovery 8/20/14 at about 6:13 a.m.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher NMOCD and Jim Amos BLM	
By Whom? Tony Savoie	Date and Hour: 8/20/14 at 7:07 a.m.	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	
If a Watercourse was Impacted, Describe Fully.*		
Describe Cause of Problem and Remedial Action Taken.* Produced water was being transferred from a BOPCO SWD line to a frac at the PLU-430H well. The Victaulic clamp that holds the lay-flat hose together failed due to a combination of loosened bolts on the clamp and a possible spike in pressure at or near the time of the clamp failure. The transfer pumps were shut down and the hose was pinched off to stop the water flow. The clamp was replaced along with a new section of hose.		
Describe Area Affected and Cleanup Action Taken.* The spill impacted approximately 1200 sq.ft. of caliche road and approximately 38,000 sq.ft. of pasture. Basin Env. Collected soil samples from several points along the flow path to determine the horizontal extent. The hand auger used in the sampling event could not penetrate the caliche that ranged from 6" to 18" in depth. The remediation will begin as soon as the BLM clears the Arch survey. The spill will be cleaned up in accordance to the NMOCD and BLM remediation guidelines.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
